

Blind (eyes wide open)

Eyes wide open, still we are blind
Lots of people getting left behind
What's the future for you and me?
What's the future for humanity?

Tell me why can't you see?
Oh why can't we see?
Do we choose to be blind?
And we don't mind
And we don't mind

Sitting in a room, feeling alone
All I want, is a place to call home
We're all part of the human race
Justice shouldn't be about the colour of your face?

Tell me why can't we see?
Oh why can't we see?
Do we choose to be blind?
And we don't mind
And we don't mind

Powerful corruption, many issues
Too much pain, and not enough tissues
Many communities are left unhealthy
Is it because that they're not wealthy

Tell me why can't you see?
Oh why can't we see?
Do we choose to be blind??
And we don't mind
And we don't mind

Eyes wide open, still we are blind
Lots of people getting left behind
What's the future for you and me
What's the future for humanity?
